

Personal Statement

In order to be sure that The Arc Gateway Program for Adult Learning and Support at Pensacola State College is the best match for our applicants, we require, as part of the application process, that each student complete a personal statement. This will help PALS staff and committee members get to know you as a person, as well as tell us a little about your desires and goals.

In your Personal Statement, include information about:

- Yourself (i.e.: family, friends, favorite pastimes, sports, school)
- Your dreams for the future
- Why you would like to become a PALS student
- Any other details about yourself that will help you stand out as an applicant

This can be written, videotaped, or recorded. There is no required length, but more is not necessarily better. Be creative.

Note: Originals will not be returned.
